

Navigating the Referring Provider Portal

The Referring Provider Portal is used by referring providers to submit referrals, request appointments, and view results for their patients.

Final Results Worklist

After logging in, the default view for most users will be the Final Results worklist. This list displays completed imaging procedures and allows users to read finalized reports. You can also print or save reports using the icons shown below.

The screenshot displays the AbbaDox Referring Provider Portal interface. On the left is a navigation sidebar with options: Patients, Workflows, Referrals, Open Appointments, Final Results (selected), and No Show / Canceled. The main area shows a 'Final Results' worklist table with columns: Rec.#, Patient Name, Provider, Author, DOS*, and Actions. The table lists four records. The first record (08-2000020) for 'zztest, Buddy' is selected, and its details are shown on the right. The 'Actions' column for this record has a dropdown menu with options: 'DICOM' (highlighted with a green box and arrow), 'Patient Chart', 'Print or save' (highlighted with a green box and arrow), and 'More'. The patient report on the right includes patient information, exam details, and a detailed findings section.

Rec.#	Patient Name	Provider	Author	DOS*	Actions
08-2000020	zztest, Buddy	zzTest, Sarah	Shramek, Jeffroy	04/07/2026	[+] [More]
08-2000027	ZZtest, Butters	zzTest, Sarah	Shramek, Jeffroy	04/06/20	[+] [More]
08-1792316	TestSC, Fax	zzTest, Sarah	LandrethMD, Katie	03/26/20	[+] [More]
08-1838295	Test, Brinkle	zzTest, Sarah	Radiologist, Medquest	03/24/2026	[+] [More]

Patient Report Details:

- PATIENT NAME:** zztest, Buddy
- DOR:** 01/01/2000
- MRN:** 08-2000020
- PHONE:** (777)777-7777
- PHYSICIAN:** Sarah Test
- EXAM DATE:** 04/07/2026
- EXAM:** MRA Head and Neck With Contrast
- REASON FOR EXAM:** W36.4:Contact with shark
- COMPARISON:** None.
- TECHNIQUE:** 2D and 3D time-of-flight MR angiography of the neck and head with volume rendered and rotating 3D MIP reconstructions independent 3D workstation performed after the intravenous administration of contrast.
- FINDINGS:** Normal evaluation of the transverse aortic arch and great vessels. Normal diameter and smooth lumens of the extracranial vertebral and basilar arteries with no evidence for dissection, aneurysm, pseudoaneurysm, arteritis, or fibromuscular dysplasia. Alternating diameter narrowings and caliber changes of the vertebral arteries within the neck compatible with fibromuscular dysplasia. There is also atherosclerotic plaque within the proximal right ICA producing a 40% diameter stenosis. Suggestion of a subtle erosion into atherosclerotic plaque at this site may indicate intraplaque ulceration. This places the patient at increased risk of thromboembolic disease to the brain and CVA.
- 15 mm patent aneurysm of the right MCA bifurcation is directed posteriorly and inferiorly. In addition, there is 30% narrowing of the left A1 ACA with poststenotic dilatation.**
- Infundibulum of the right posterior communicating artery.**
- IMPRESSION:**
 - 15 mm patent right MCA bifurcation aneurysm.
 - 50% narrowing of the left A1 ACA with poststenotic dilatation.
 - Fibromuscular dysplasia of the vertebral arteries within the neck.
 - Atherosclerotic plaque within the proximal right ICA producing a 40% diameter stenosis. Suggestion

- Click the  and then click DICOM to view the study images or Patient Chart to view patient demographics and documents, OR click the  and  buttons.

Open Appointments Worklist

The Open Appointments list displays all patient appointments and their current status in the imaging workflow.

For appointments in **Pending** status, the **Pending Reason** column provides additional details on the pending appointment.

- Click the pencil icon , named Patient Chart, to view patient demographics and documents.
- Click the  and then click DICOM to view the study images.

No Show/Canceled Worklist

The No Show/Canceled Worklist displays patients who have either “no showed” to their appointment or their appointment was canceled for some other reason. If canceled, this worklist will also display the Canceled Reason.
