

How to Use The Referring Provider Portal

Registering for Referring Portal

New referring providers will receive login credentials to the Referring Provider Portal from the imaging center marketing team or another specified individual from the facility.

Log In to Referring Provider Portal

1. Go to AbbaDoxCareFlow.com and enter User Name and Password.
2. Click Login.
 1. If this is your first time logging in, you will be prompted to change your password and accept a HIPAA statement.

Scan to access the
online portal guide.

3. Click Text (***) ***-#### to text a security code to your phone

4. Enter the code from your texts and click Login (example code 305187 shown below)

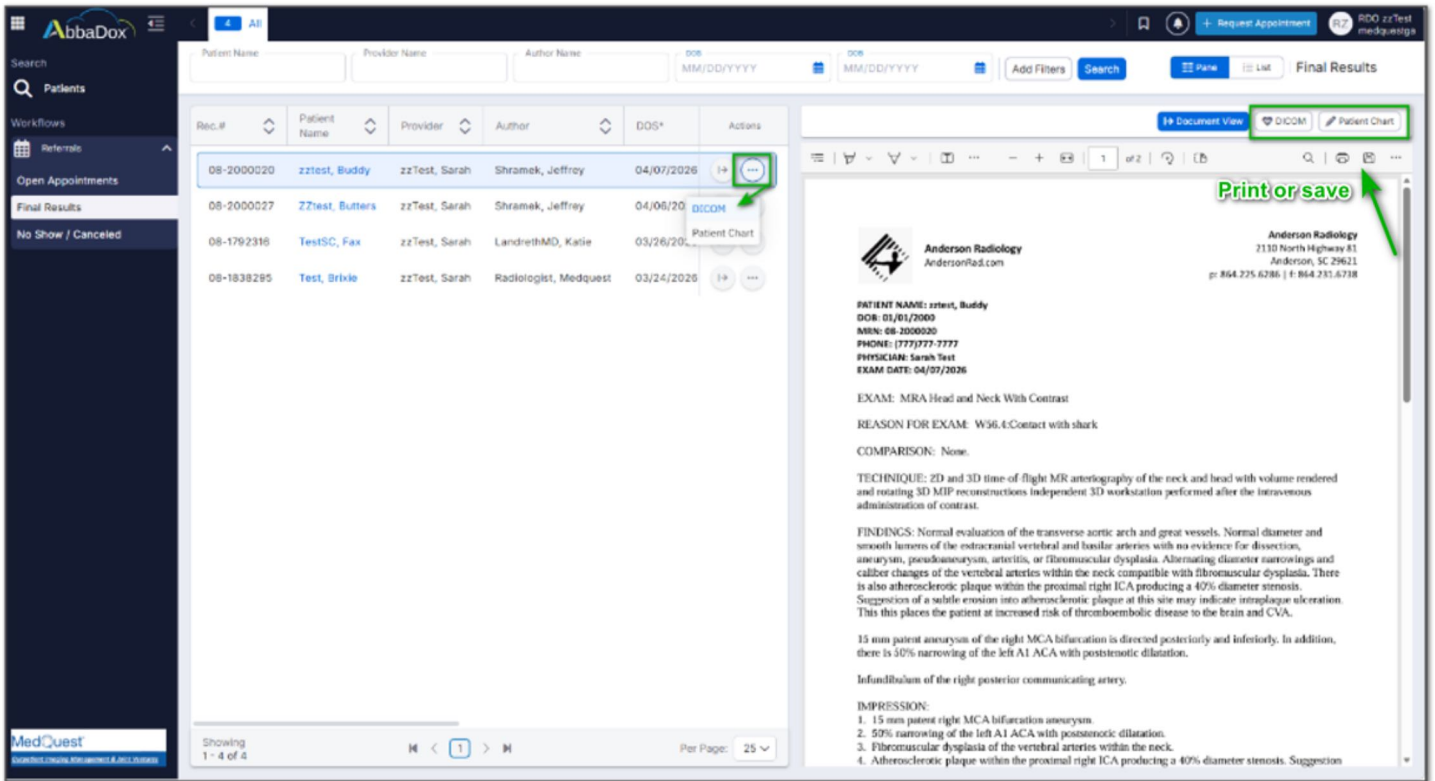

Navigating the Referring Provider Portal

The Referring Provider Portal is used by referring providers to submit referrals, request appointments, and view results for their patients.

Final Results Worklist

After logging in, the default view for most users will be the Final Results worklist. This list displays completed imaging procedures and allows users to read finalized reports. You can also print or save reports using the icons shown below.

The screenshot displays the AbbaDox Referring Provider Portal interface. On the left is a navigation sidebar with options: Patients, Workflows, Referrals, Open Appointments, Final Results (selected), and No Show / Canceled. The main area shows a table of imaging results with columns: Rec.#, Patient Name, Provider, Author, DOS*, and Actions. The table lists four records for patient 'zzTest, Buddy'. The first record (08-2000020) is selected, and its details are shown on the right. The details include patient information, exam type (MRA Head and Neck With Contrast), reason for exam (W36.4:Contact with shark), comparison (None), technique (2D and 3D time-of-flight MR angiography), findings (Normal evaluation of the transverse aortic arch and great vessels...), and impression (15 mm patent right MCA bifurcation aneurysm...).

Key interface elements highlighted with green boxes and arrows:

- Document View, DICOM, Patient Chart:** Buttons at the top right of the report area.
- Print or save:** A green arrow points to the print and save icons in the top right of the report area.
- Actions:** A green arrow points to the 'Actions' column in the worklist table, specifically to the 'DICOM' and 'Patient Chart' icons.

- Click the  and then click DICOM to view the study images or Patient Chart to view patient demographics and documents, OR click the  and  buttons.

Open Appointments Worklist

The Open Appointments list displays all patient appointments and their current status in the imaging workflow.

For appointments in **Pending** status, the **Pending Reason** column provides additional details on the pending appointment.

- Click the pencil icon , named Patient Chart, to view patient demographics and documents.
- Click the  and then click DICOM to view the study images.

No Show/Canceled Worklist

The No Show/Canceled Worklist displays patients who have either “no showed” to their appointment or their appointment was canceled for some other reason. If canceled, this worklist will also display the Canceled Reason.

Patient Name	Provider	Appointment Status	DOS*	Canceled Reason	Exam Description

Request Appointment Workflow

Referring providers can request appointments for patients using the Request Appointments button in the portal.

Request Appointment Button

To request an appointment:

1. Click Request Appointment in the top right corner to launch the Scheduling Wizard in a new window.

2. In the Scheduling Wizard window, select Referring Request an Appointment.

A screenshot of a web window titled 'Request an Appointment' with a calendar icon. Below the title is a blue-bordered box containing the text 'Please select one of the following appointment scheduling wizards'. Below this box are two white buttons with rounded corners and right-pointing chevrons. The first button is labeled 'Referring Request an Appointment' and the second is labeled 'Schedule a Screening Mammo or X-Ray'.

Step 1 - Patient Info

The screenshot shows the 'Request Appointment' interface. On the left is a sidebar with a vertical list of steps: 1 Patient Information (highlighted with a blue circle), 2 About You, 3 Procedures, and 4 Confirmation. The main content area is titled 'Patient Information' with a blue header bar. Below the header is a form with four input fields: 'Date of Birth*' (placeholder: MM/DD/YYYY), 'First Name*' (placeholder: First Name), 'Last Name*' (placeholder: Last Name), and 'M.I.' (placeholder: Midc). To the right of these fields is a blue 'Find Patient' button. In the top right corner of the form area, there is a blue link labeled 'Expand All' with a downward arrow icon.

1. Clicking Find Patient without entering any patient information first will search for all patients that have been previously referred by the provider logged in and auto-fill patient details.

Click the X in the right corner of this pop-up box to close it or click the correct patient and click Continue to select them.

2. If requesting an appointment for a new patient, enter their Date of birth, First Name, and Last Name, and click Find Patient.
3. If no results are found, click Expand All to display additional fields and continue entering patient details.

This screenshot shows the same 'Request Appointment' interface as the first one, but with patient information entered and a search result displayed. The 'Date of Birth*' field contains '03/24/1980', 'First Name*' contains 'ro', and 'Last Name*' contains 'zztest'. The 'Find Patient' button is now highlighted in a darker blue. Above the form, the text 'ro zztest' and 'DOB: 03/24/1980 (46yo)' is displayed. A green arrow points to the 'Expand All' link in the top right corner of the form area.

4. When done entering patient details, click Next.

Step 2 - About You

Select the referring provider and add any needed documents or comments to send to the imaging center.

1. Select the Referring Provider then click Add.
(You may only see one referring provider, or many, depending on your practice settings.)
2. If an order, clinicals, pre-auth, or other documents need to be uploaded, click Browse Files and select the file to upload with the appointment request.
3. Select the document type from the dropdown.
4. If a comment is needed, select the comment recipient, type the comment, and click Next.

Step 3 - Appointment Details

After entering patient details, complete the appointment details, which include: Services/Procedures, Location, Time, and Diagnosis.

Services/Procedures

1. Select the Procedure Type and Procedure.
2. Click Add.

Location

1. Select the preferred Location and click Next.

 **Request Appointment**

1. Services/Procedures
Select the procedure type and use the procedure lookup field to add your appointment.

Type

N Charleston, SC 29406-9172

☐

Piedmont Imaging LLC
684 N Pine St
Spartanburg, SC 29303-3745

Diagnosis

2. Scroll down to enter the diagnosis (you can search by code or keyword, then click the correct option to select it), add an onset date, if known, and click Add.
3. Click Next to view the Summary page.

The screenshot shows a web form titled "3. Schedule". Below the title is a note: "The exact time of the appointment will be determined when the order is received and scheduled with the patient." followed by an empty text input field. Below this is a section header "Diagnosis" with a blue icon. Under "Diagnosis", there is a search bar containing the text "Bitten by goose (W61.51)" and a magnifying glass icon. To the right of the search bar is a label "Onset Date" above a date input field with the placeholder "MM/DD/YYYY" and a calendar icon. A blue "+ Add" button is to the right of the date field. At the bottom of the form, there are two buttons: "< Back" on the left and "Next >" on the right.

Step 4 - Summary

After entering appointment details, the Summary page displays all details before sending the appointment request.

Schedule a Screening Mammo or X-Ray Workflow

Request Appointment Button

To request an appointment:

1. Click Request Appointment in the top right corner to launch the Scheduling Wizard in a new window.

2. In the Scheduling Wizard window, select Schedule a Screening Mammo or X-Ray.

Schedule a Screening Mammo or X-Ray Steps

After clicking Request an Appointment, the scheduling template will open.

1. If requesting an appointment for a new patient, enter their Date of birth, First Name, and Last Name, and click Find Patient.
2. If no results are found, click Expand All to display additional fields and continue entering patient details.

Quick Notes:

Patient Chart

Click on the patient's name, in blue, from any Worklist to access their patient chart.

Inside the patient chart, you will be able to view reports and visit forms and view the DICOM images

by clicking the  icon.

The screenshot displays the patient chart for Buddy Zztest (08-2000020). The interface includes a top navigation bar with tabs for ID Card, Consent Forms, Portal Uploads, Financial, Patient Education, Ultrasound, Tech Workflow, Insurance, Reports, Orders / Referring Clinicals, e-Forms Clinicals, Screening, Prescreening Questionnaire, Medical Records, and Patient Study Viewer. The 'Documents & Images' tab is active, showing a list of documents with columns for Search, DateOfService, Author, and Status. A single document is listed: 08-6259 - MR (1), dated 4/7/2026 8:00:00 AM, authored by Shramek Jeffrey, and signed.

The main content area displays the following information:

- Record #:** 08-2000020 **Name:** Buddy zztest **DOB:** 01/01/2000
- EXAM:** MRA Head and Neck With Contrast
- REASON FOR EXAM:** W56 4: Contact with shark
- COMPARISON:** None.
- TECHNIQUE:** 2D and 3D time-of-flight MR arteriography of the neck and head with volume rendered and rotating 3D MIP reconstructions independent 3D workstation performed after the intravenous administration of contrast.
- FINDINGS:** Normal evaluation of the transverse aortic arch and great vessels. Normal diameter and smooth lumens of the extracranial vertebral and basilar arteries with no evidence for dissection, aneurysm, pseudoaneurysm, arteritis, or fibromuscular dysplasia. Alternating diameter narrowings and caliber changes of the vertebral arteries within the neck compatible with fibromuscular dysplasia. There is also atherosclerotic plaque within the proximal right ICA producing a 40% diameter stenosis. Suggestion of a subtle erosion into atherosclerotic plaque at this site may indicate intraplaque ulceration. This this places the patient at increased risk of thromboembolic disease to the brain and CVA.
- 15 mm patent aneurysm of the right MCA bifurcation is directed posteriorly and inferiorly. In addition, there is 50% narrowing of the left A1 ACA with poststenotic dilatation.**
- Infundibulum of the right posterior communicating artery.**
- IMPRESSION:**
 1. 15 mm patent right MCA bifurcation aneurysm.
 2. 50% narrowing of the left A1 ACA with poststenotic dilatation.
 3. Fibromuscular dysplasia of the vertebral arteries within the neck.
 4. Atherosclerotic plaque within the proximal right ICA producing a 40% diameter stenosis. Suggestion of intraplaque ulceration. This places the patient at increased risk of thromboembolic disease to the brain and CVA.

Notes

- Clicking Patients under Search at the top left will show all your recent patients.
- If you forget your password, click the Forgot Password link on the main login page to reset your password.
- If you know your password and want to change it, log in and click your name in the top right corner. From here, click Change Password.
- Clicking the DICOM buttons will launch a window to view exam images in iConnect.
- Reports show in the patient chart without the header information. Printing them will include the header information, to include the facility and patient information.
- You can print any documents from the patient chart.
- You cannot modify the patient's demographics; you can only view them.
- You can add additional filters in any view by clicking the  button.
- If you need to reset your multi-factor authentication phone number, please contact your marketing representative so we can update your account.
